

Job Summary:

Stone Dimensions is a full-service countertop fabricator and installer serving homeowners and contractors throughout the greater Milwaukee metropolitan area. The business has grown significantly over the last 20 plus years through a commitment to quality products, excellent service, and consistent investment in our teams and the resources to help them succeed. We offer a fun, collaborative atmosphere and a culture built on mutual respect for each other, our partners, and our customers.

Our greatest goal is to ensure our employees enjoy both their work and the environment at Stone Dimensions, and we believe our success is driven by this mission. The company also provides highly competitive wages, great benefits, and the potential of upward mobility for those who excel in their roles.

Core Duties:

- Programming countertops in Alphacam while also utilizing AutoCAD
- Loading and unloading the mill table by hand and with an overhead crane
- Operating a Northwood Sawjet or Mill at times
- Read, interpret, and troubleshoot drawings to ensure successful machining
- Inspect pieces before and after milling to ensure quality control
- Maintain supplies, tools, and work area around the machine
- Use company software to document fabrication and track the schedule
- Work with other departments to prepare tops before and after machining
- Maintain tools
- Contribute to a respectful and collaborative culture with a positive attitude and a consistent effort to build strong, genuine relationships across the company and departments

The Right Candidate Will Exhibit and Enjoy Utilizing These Skills:

- Ability to Manage Workload and Take Ownership of Role and Assignments with Minimal Supervision
- Excellent Communicator through In Person, Phone, and Electronic Interaction
- Desire to learn from others
- Capacity to Multitask and the Flexibility to Handle a Wide Range of Duties
- Organization
- Attention to Detail
- Pride in Accomplishments
- Reliability
- Desire and Ability to Evolve the Business and Yourself
- Ambition to take on Additional Duties to Add Value where Opportunity Exists

These Requirements are Crucial for Both of our Success:

- Ability to use a computer and program the work
- Desire to learn as we desire to instruct
- Recognition of the importance of safety
- Comfortability with overhead cranes
- Embrace and enjoy problem solving. Custom fabrication and the construction trades offer daily opportunities to learn, grow, and increase your knowledge and abilities.

We Provide:

- Fair, respectful treatment of all employees – Seems to be a rare thing in the construction industry. You will not find a better environment to work in.
- Opportunity for growth and cross training throughout our operation – A member of our sales team is a former installer! Want to learn how to run a CNC machine? Interested in measuring and engineering? Our team's flexibility is one of our unique strengths in this industry.
- We provide better than industry standard tools necessary for your work – No need to purchase or bring your own.
