

Installation Specialist

Job Summary:

Stone Dimensions is a full-service countertop fabricator and installer serving homeowners and contractors throughout the greater Milwaukee metropolitan area. The business has grown significantly over the last 20 plus years through a commitment to quality products, excellent service, and consistent investment in our teams and the resources to help them succeed. We offer a fun, collaborative atmosphere and a culture built on mutual respect for each other, our partners, and our customers.

Our greatest goal is to ensure our employees enjoy both their work and the environment at Stone Dimensions, and we believe our success is driven by this mission. The company also provides highly competitive wages, great benefits, and the potential of upward mobility for those who excel in their roles.

Stone Dimensions is excited to announce an opportunity for an Install Technician who exhibits the right combination of skills, attitude, experience, and motivation to fill a crucial role in our organization. Our business is renowned for quality first fabrication and the consistency with which our Install Technicians deliver extraordinary service and exceptional results with the finished product for our customers.

The Right Candidate Will Exhibit and Enjoy Utilizing These Skills:

- Ability to Manage Workload and Take Ownership of Role and Assignments with Minimal Supervision
- Excellent Communicator through In Person, Phone, and Electronic Interaction
- Passion for Serving Customers and Coworkers
- Creativity in Execution of Assignments
- Capacity to Multitask and the Flexibility to Handle a Wide Range of Duties
- Organization
- Attention to Detail
- Pride in Accomplishments
- Reliability
- Desire and Ability to Evolve the Business and Yourself
- Ambition to take on Additional Duties to Add Value where Opportunity Exists

These Requirements are Crucial for Both of our Success:

- High proficiency utilizing power and hand tools in the stone industry.
- Ability to operate forklifts and forklift trucks
- Comfortability with overhead cranes
- Clean driving record absolutely required. Install Technicians must be insurable for operating installation vehicles.
- Embrace and enjoy problem solving. Custom fabrication and the construction trades offer daily opportunities to learn, grow, and increase your knowledge and abilities.

Core Duties

- Maintain a safe working environment at all times, locations, and while using tools and equipment
- Unload, photograph, and transport material in the warehouse
- Maintain organization of material and have a working knowledge of our inventory
- Drive a forklift or ability to learn forklift operation
- Assist fabricators, machine operators, and installation teams as needed
- Read, interpret, and troubleshoot drawings to ensure successful completion of installation
- Maintain supplies, tools, work areas, and vehicles used with fabrication and installation process
- Use company software to document fabrication and installation process and access shared project information
- Contribute to a respectful and collaborative culture with a positive attitude and a consistent effort to build strong, genuine relationships across the company and departments

We Provide

- Fair, respectful treatment of all employees - You will not find a better environment to work in.
- Opportunity for growth and cross training throughout our operation — A member of our sales team is a former installer! Want to learn how to run a CNC machine? Interested in measuring and engineering? Our team's flexibility is one of our unique strengths in this industry.
- We provide better than industry standard tools necessary for your work – No need to purchase or bring your own.
